

Homework 3 Code

Matthew Schoen

Set Up

```
# Reading in necessary packages
library(tidyverse)
library(here)
library(janitor)
library(readxl)

# Storing kelp data as specified object
kelp <- read_csv(
  here("data", "temp-kelp.csv"))

# Storing personal data as specified object
step_count <- read_csv(
  here("data", "MyData_HW3_Format.csv")
)
```
